Slide 1: Title

- Project Title
- Theme
- Team Name & ID
- College Name

Slide 2: Problem + Existing Gap

- What is the problem?
- Who is affected?
- Current solutions (if any)
- Key gaps / limitations

Slide 3: Proposed Solution

- Your idea in simple terms
- How it solves the problem
- What makes it better than existing solutions

Slide 4: Architecture + Tech Stack

- System flow (Input → Process → Output)
- Components (Frontend, Backend, AI, DB)
- Tech stack (React, Node, Python, etc.)

Slide 5: Key Features

- 3–5 strong features only
- Highlight innovation
- Any AI / automation / unique logic

Slide 6: Impact + Feasibility

- Who will benefit
- Real-world impact
- Scalability
- Basic feasibility (cost / deployment)

Slide 7: Demo + Conclusion (Optional)

- Demo / Prototype (screenshots or link)
- One-line strong conclusion
- “Why this should be selected”
